- Complete LED Driver and LED Module Systems
- High Efficiency LED Drivers
- Custom LED Retrofit Options
- Standard LED Solutions

### **EHID**

- Low Frequency Electronic HID Ballasts
- Low Wattage Models Available
- Advanced Performance Design
- Ignitor and End of Life Failure Protection
- Thermal Protection
- Low THD

### **FLUORESCENT**

- Electronic T8 & T5 Ballasts
- Linear & CFL
- Instant Start and Program Start
- Dimming Models Available
- CEE Compliant Lamp & Ballast Combinations

### **EXIT & EMERGENCY SIGNS**

- LED Solutions
- Photoluminescent Solutions
- Full Product Offering

# FULHAM CAPABILITIES

*Upgrading existing lighting systems to more energy-efficient, technologies can greatly reduce operating costs and provide an attractive Return on Investment while maintaining light levels and light quality.*

Fulham built its reputation on high-quality electronic fluorescent ballasts. In recent years, Fulham has expanded its product offerings to include a host of additional cost-effective technologies relevant to renovation, all of which have been developed with the same attention to quality and reliability that made us who we are today.

Through careful selection, analysis, and optimization across Fulham's lighting technologies, our team of renovation experts can develop a plan that best meets your needs for energy savings and rapid payback.
