## Interconnect Cables

### Product Overview

Fulham's Control System is designed for flexibility and simplicity throughout the life of a project, from specification to installation and on-going operation. Fulham cables incorporate quick connecting standard Cat 5 cable via RJ45 and RJ12 jacks throughout the installation. Fulham Cables eliminate miswiring and provide error-free system communication.

Versatility and quality are standard characteristics of an industry leading lighting control system. Lighting Control cables from Fulham bring that flexibility and reliability to installing its systems. Fulham tests the quality of all cables to ensure dependable system communication when on site. Cables are also plenum rated ensuring cabling can be safely installed throughout a ceiling's plenum spaces.
