

Constant Voltage LED Drivers

For LED Tape Light used in Coves, Refrigerators, Signage & more

EdgeHorse / IceHorse LED Driver Features & Benefits

Three 0-10V Dimmable models (cULus) and One non-dimming model (cURus)

High Efficiency, Reliability & Flexibility

For Constant Voltage lighting applications that include use with LED tape lighting / LED Strip lighting in coves for decorative applications

Low Profile and Compact Size

12V and 24V models

Low Temp performance for use with LED lighting in the edges of refrigerator systems for food or medicine, or for enclosed signage (damp location)

The EdgeHorse / IceHorse family of LED drivers brings the flexibility and reliability of Fulham's products to tape lighting applications that require Constant Voltage drivers. Four models to meet your needs.

Constant Voltage LED Drivers

- Recommended for Constant Voltage lighting applications such as:
 - Tape lighting (decorative cove illumination)
 - Signage lighting (damp location)
 - Low temp refrigeration and freezer applications (food cases, vending machines, medicine storage)
 - Closets, millwork, custom furnishings and high-end residential
