

# FULHAM

0-10V DIMMING

## LED DRIVER ESSENTIALS

"AT A GLANCE"

### (SCCC) TRI-DIM COMPACT PROGRAMMABLE DRIVERS

Tri-Dim; 0-10V, ELV and TRIAC

65W in a compact case form factor

Field Programmable - 300-1800mA

coming soon

### (IHCV) LOW TEMP CONSTANT VOLTAGE DRIVERS

Specialty Applications Include:  
Refrigeration  
Signage, Cove, Mirror,  
Landscaping,  
Decorative, Flex  
Tape/Linear Runs

Constant Voltage (CV) 12V and 24V Dimmable and Non-dimmable versions

### (WHSG) OUTDOOR PROGRAMMABLE DRIVERS

Non-Class 2 LED Drivers (75W-320W) with Multiple Options per Wattage (Different Output Current & Voltage)

IP66, Type HL, high input surge (6kV/10kV), Dry & Damp Rated, 0-10V Dimming

Field Programmable on a wide range of output current with TPSB-100

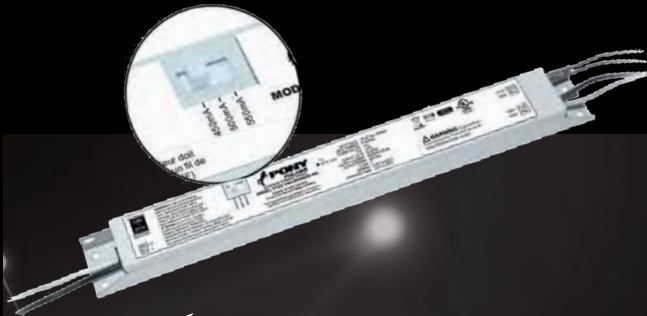

coming soon

# FULHAM

0-10V DIMMING

# LED DRIVER ESSENTIALS

"AT A GLANCE"

## (PYCC) SELECTABLE CURRENT LED DRIVERS

Versatility and Convenience via 7 models that cover 300 - 1300mA (Vf 30-42V)

3 Selectable Preset Currents per model via a dip switch

Cost Effective Solution with NO need for a programming tool

## (THCC) Programmable Indoor LED Drivers

The power to create the right driver for any situation: 30W, 50W, 85W

Wide programmable current range across 3 models (350-2400mA)

Field-programmable with handheld programmer TPSB-100

## (WHCC) Programmable Outdoor LED Drivers

Small form factors with extruded aluminum design for thermal performance

Type HL, high input surge (6kV/10kV), IP65/66

Field Programmable with handheld programmer TPSB-100 (350-2670mA)
