

GET BACK IN THE SADDLE WITH
FULHAM®

Upon re-opening, surprise building occupants with a hygienic, hands-free lighting solution that also saves energy. No need to touch wall switches frequently, when occupancy sensors and daylight sensors are in play. Recommended for commercial buildings, warehouses, office spaces and more.

Whether upgrading to new lighting or for new construction, a wireless Bluetooth mesh solution like Fulham's Elite Control is a great option. Click here for details about capabilities and components:
