

Fulham seeks to continually provide high quality and effective products built on solid technology. From time to time it therefore becomes necessary to end the life of certain products. For assistance, please contact Fulham Client Services (323-599-5000) or order@fulham.com.

This letter announces the product upgrade and replacement plan for FLUORESCENT EMERGENCY BALLASTS. The current DUAL voltage input models (120V or 277V) are being replaced by new UNV input models (120V thru 277V). These new UNV input models are CEC Title 20 compliant, which is now mandatory for installation in certain states. Please refer to the product spec sheets to confirm suitable lamp operation, dimensions, and other specifications.

With the new UNV input models available, we will be discontinuing most of the DUAL voltage input models. The only DUAL voltage input model that will continue to be available is FH4-DUAL-700L. This model will continue to be available due to several lamp applications unique to this EM ballast.

With the new replacement models available, we will be discontinuing the following models. The last date to order these products will be May 29, 2018, unless stock is depleted sooner.

DISCONTINUED ITEM	RECOMMENDED REPLACEMENT ITEM	COMMENTS
FH1-DUAL-750CFL	FH11-UNV-750L-CEC	
FH3-DUAL-450L	FH7-UNV-500L-CEC	
FH5-DUAL-1400L	FH12-UNV-1400L-CEC	
FH7-UNV-500L	FH7-UNV-500L-CEC	
FH8-DUAL-1300L	FH12-UNV-1400L-CEC	Cross section dimension on new model is larger than FH8
FH9-DUAL-800L	FH11-UNV-750L-CEC	Cross section dimension on new model is larger than FH9
FH10-DUAL-500L	FH7-UNV-500L-CEC	Cross section dimension on new model is larger than FH10
