

Fulham's goal is to continually provide high quality and dependable products built on solid technology platforms. However, it occasionally becomes necessary to end the life of products due to changing technologies, product improvements, and/or market demand.

This letter announces the product upgrade and replacement plan for LINEAR DC LED MODULES. These modules are being replaced by new and improved Low Profile Linear High Output (LP-LinearHO) DC LED Modules for high lumen linear applications. These new efficient and easy-to-install modules are available at 3000K, 4000K, and 5000K in 80CRI. More information on the new Fulham LP-LinearHO Modules can be found here:

<https://www.fulham.com/product-systems/led-systems/led-modules/>

With the new High Output modules now available, we will be discontinuing the previous modules listed below. The last date to order these discontinued items will be October 24, 2018, unless stock is depleted sooner.
