Fulham Co., Inc.'s Limited Warranty provides coverage against manufacturing defects of Fulham products when used in accordance with Fulham published specifications. You can get more information at <http://www.fulham.com/PDFs/Limited-Warranty.pdf>

Fulham has become aware of the recent market use of LED T8 and T5 tube lamps for retrofitting original T8 and T5 Fluorescent lamp fixtures.

The following Fulham Fluorescent ballasts have been tested with LED Tube lamps found in the market and we offer a limited warranty for the ballast only when the LED lamp wattage load is within the operating limits and rating of the specific ballast.

WHS2-UNV-T8-LB – 56 lamp Watt Max Load, 1~2 lamp Max  
WHS2-UNV-T8-IS – 56 lamp Watt Max Load, 1~2 lamp Max  
WHS2-UNV-T8-HB – 64 lamp Watt Max Load, 1~2 lamp Max  
WHS3-UNV-T8-LB – 84 lamp Watt Max Load, 2~3 lamp Max  
WHS3-UNV-T8-IS – 84 lamp Watt Max Load, 2~3 lamp Max  
WHS3-UNV-T8-HB – 96 lamp Watt Max Load, 2~3 lamp Max  
WHS4-UNV-T8-LB – 122 lamp Watt Max Load, 3~4 lamp Max  
WHS4-UNV-T8-IS – 122 lamp Watt Max Load, 3~4 lamp Max  
WHS4-UNV-T8-HB – 128 lamp Watt Max Load, 3~4 lamp Max

RHA-UNV-228-LT5 – 56 lamp Watt Max Load, 1~2 lamp Max

FULHAM DOES NOT ACCEPT ANY RESPONSIBILITY FOR ANY DAMAGES OF WHATEVER NATURE OR WARRANTY OPERATION OF LED TUBES LAMPS WHEN USED WITH FULHAM FLUORESCENT BALLASTS. Use of these LED T8 and T5 Tubes lamps should be reviewed by, and are subject to, the original Tube lamp manufacturer's operational guidelines and warranty requirements.

Fulham does not recommend or warrant any models of the SC or NPY ballast series for use with LED Tube lights.

Please check with Fulham's Customer Service or Fulham's website for the most up to date version of this letter.
